## Due to Poor Battery Welding

Samsung SDI has voluntarily initiated a recall of its batteries for electric vehicles in the United States.

Samsung SDI has voluntarily initiated a recall of its batteries for electric vehicles in the United States after confirming defects in battery modules.

The company submitted a plan to recall high-voltage batteries for plug-in hybrid electric vehicles (PHEVs) of U.S. carmakers Ford and Stellantis to the National Highway Traffic Safety Administration (NHTSA) on Jan. 28 (local time), the NHTSA said on Feb. 4.
